

## CITY COUNCIL IN REGULAR SESSION

### Lighting Contract For Another Six Year Period Is Offered At Old Rate

The White Way committee reported progress at the meeting of the City Council held as usual for November, on Thursday night, a new City Board of Health was appointed and considerable routine business disposed of.

Police Judge G. Murray Smith reported \$133 imposed in fines in his court during October. City Tax Collector J. M. Dykes, reported tax collections to the first of November at \$53,559.40, which went to the following funds: General fund, \$24,856.35; to the school fund, \$13,601.50; to the sinking fund, \$1,856.35; to the sinking fund for street bonds, \$13,902.75. Street Commissioner Allman reported \$410.80 spent for labor on street work during October. Chief of Police Clarence Devore attached his check for \$51 for amount of fines he collected during the past month. City Engineer S. F. Creelius submitted a lengthy technical report of the work that has been done on the sewers and streets.

The Water and Light Committee reported that Mayor Evans said that the Richmond Water & Light Company complained that the sewerage work was interfering with its water mains. He said this was caused, however, by failure of the company to give the engineer the proper location of its mains; that he had dug for the new sewers where the company had said the pipe was not, and found water pipe. The matter has been turned over to City Engineer Creelius for attention.

Councilman Terrill reported that the Fiscal Court had agreed to pay for the county's third of the street improvement cost around the court house at a figure not to exceed \$6,000. Councilman Terrill will also take up with the Fiscal Court the matter of the Whit Way lights in front of the court house.

Councilman Golden said a pond on railroad property near Mr. Vandever's store in the East End is causing much complaint, and it was voted to request the railroad company to remedy the matter.

Councilman Mershon secured a favorable vote on his motion to place a light on Irvine street near the city limits. One will be transferred from near the old barrel factory.

The push cart question was brought up by Councilman Wm. O'Neil, who said that Chief Devore is enforcing the ordinance to keep them off the sidewalks, and several business houses which have to use them, have found them endangered in the streets by autos and other traffic since the central parking system has made the room on each side of street so narrow. Nothing was done about the matter, after considerable debate.

F. H. Barnett was rebated \$25 on his pool room license as he was unable to use six tables for which he had originally secured license, his storeroom accommodating only five tables.

Councilman William O'Neil requested information from the city attorney as to the powers of the city assessor to begin making an earlier assessment so that extra help would not have to be employed and the assessor's books be gotten out on time.

Councilman Terrill presented requests for building permits from Emil Lohrlich for the ice cream factory he proposes to build on Armer street. It will be of brick and cost about \$3,000. The Richmond Motor Company

was also granted permit for a gasoline filling station in front of its garage on West Main street. Upon complaint of Councilman Golden, City Attorney Chenault promised to see that two trees at the corner of Main and Collins streets are removed. They are said to damage buggies and automobiles with their overhanging branches.

Attorney C. C. Wallace asked that a low place in a street in Evansdale be tiled and drained, and it was referred to the Street Committee with power to act.

Owen Walker and Sam Collins, both colored, were granted license to conduct pool rooms on opposite corners of First and Irvine streets.

Upon suggestion of Dr. A. G. Bosley, the council elected Dr. C. E. Smoot, Messrs. J. W. Hamilton and E. C. Stockton, as members of the City Board of Health for the ensuing three years. They succeed Messrs. E. Berry, T. H. Campbell and J. Hale Dean, whose terms have expired.

Bud Kearns objected to a stable which is being erected without a building permit by Aline Phelps, on East Main street, and the police were instructed to notify her not to build it without securing a permit from the council as required by law.

The Kentucky Utilities Company presented a renewal of its street lighting contract with the city, the old contract having expired. The new contract calls for payment of the same rate for street lights as the old contract, and like the old contract runs for a period of six years. Upon motion of Councilman Terrill the contract was referred to the Lighting Committee to investigate and report on at the December meeting of the council. In the meantime, the company is authorized by resolution to continue street lighting under present arrangements until the new contract has been ratified by the council.

Mr. McLellan, of the Kentucky Utilities Company, reported that \$4,000 has been subscribed toward the White Way project. He thought the outlook is very satisfactory and felt that with a strong effort by the committee, the entire sum needed can be raised soon.

### Prominent Paris Woman Dead

Mrs. Lucile Turney Clay, wife of J. Frank Clay, prominent farmer of Bourbon county, died Wednesday afternoon at the home of her sister, Mrs. Harry B. Clay in Paris. Mrs. Clay went to Paris last week to visit her sister, became ill and was unable to return to her home.

Mrs. Clay was the daughter of the late Captain Dan Turner and Mrs. Mollie Mitchell Turney. Besides her husband she is survived by two sons, Turney Clay and Harry B. Clay, Jr.; one daughter, Miss Laura Frances Clay and three sisters, Mrs. Harry B. Clay, Mrs. Sam Willis and Mrs. Edna McMillan.

The funeral services were held Thursday afternoon at 2:30 o'clock at the residence of Harry B. Clay, the Rev. F. J. Cheek, of Danville officiating.

### Goes To Reform School Again

Christopher Riddle, aged 14, was convicted of general incorrigibility by a jury in Juvenile Court Friday, and Judge Price sentenced him to a year in the Reform School at Greendale. The lad has been there before, but his parents are unable to control him, and the truant officer reports that he will not attend school.

## KENTUCKY DRYS NOW HAVE SAFE MAJORITY

(By Associated Press) Louisville, Nov. 7.—Returns from 90 of the 120 counties show a majority of 4,509 for the prohibition amendment to the constitution of Kentucky. The Anti-Saloon League today claimed most of the remaining 31 counties will increase the majority for the "drys."

## OHIO DEFEATS NATION WIDE PROHIBITION

(By Associated Press) Columbus, O., Nov. 7.—The fate of the Federal prohibition amendment was made more uncertain today by additional returns from Tuesday's Ohio election. Complete returns, some unofficial, in all but 10 counties gave the wets a lead of 9,150. The 14 missing counties a year ago gave dry majorities of 8,237. Of the remaining proposals, the "drys" are apparently victorious on the two and three-fourth per cent beer and the state-wide prohibition proposals. The dry leaders concede the defeat of the Crabbe prohibition enforcement measure.

### Ohio Refuses To Ratify Nation-Wide Prohibition

Cincinnati, O., Nov. 7.—Tabulated and checked semi-official reports from all save four of the 5,882 precincts in Ohio give a majority of 2,426 against the ratification of Federal prohibition by the General Assembly. The missing precincts are in rural Fulton county and will not affect the result.

The same precincts show that the Crabbe law to enforce the state prohibition amendment is 28,498 short of approval, and is therefore repealed. By a majority of 41,324 the voters refused to repeal the state prohibition amendment adopted in 1918, and rejected the proposal to define beer with an alcoholic content of 2.75 per cent as nonintoxicating by a majority of 23,610.

### Austrians Are In

### Just A Matter Of "Eats"

London, Nov. 7.—Joseph Oldfield, known internationally as a physician and a writer, has published a prescription for keeping old age at bay.

According to him, it is not a question of an operation, but a daily diet, which includes dandelion leaves, fowl's eggs, grapes, lettuce, cow's milk, watercress, honey and salads (uncooked).

"Old age," he says, "is caused largely by deposit in the blood vessels and cells of the body of waste matter. So, by adopting a part fruitarian diet, a man however old, may become young again, because every cell in the body will be replaced by young cells." Dr. Oldfield asserts that a normal person, rightly fed, should live to be from 90 to 105 years old.

## PREPARING FOR COAL STRIKE TO GET BITTER

(By Associated Press) Washington, Nov. 7.—Officials in direct touch with the nationwide coal strike today apparently prepared for a prolonged shut down of mines. While the Railroad Administration would not divulge details of its work members of its central committee admitted arrangements are being made for full conservation of fuel should the strike become a "bitter fight."

In West Virginia miners continue to return to work in small numbers, according to reports here. In some quarters the belief prevailed the strike on the edge of solid union districts is losing force.

## THREE LIVES LOST IN ATLANTA HOTEL FIRE

(By Associated Press) Atlanta, Nov. 7.—Fire wrecked the Wilson Hotel here today. Scores of guests were rescued by firemen. The first search of the ruins revealed three bodies.

Two other persons were so badly injured they may die while a number are seriously burned. The cause of the fire is undetermined.

## WILL SPREAD ROCK ON SIDES OF TARTIA ROADS

In an effort to improve conditions on the two mile Tartia pike coming into Richmond, which had tartia applied, and have proven very slick for horses, the Fiscal Court at its meeting Wednesday, decided to spread rock on the sides of the tartia. Several of the magistrates, who said that their constituents have complained greatly of the damage to their horses and mules, wanted the entire pike plowed up. Some suggested that harrows be run over the roads. It appeared that the horses and mules have trouble principally on the hill-sides, and that tartia is found to be harder to hold their footing on than ice.

Squire Pleas Benton, who is just up from an operation for appendicitis, came all the way in just to attend the meeting of the Fiscal Court for the purpose of seeing if something couldn't be done about the tartia on the roads. He is gradually getting strength back. He really should not have come out, but said that the complaint among his people is so strong that he wanted to get something done.

Discussion of the road question which is becoming more serious in Madison every day, and transposition of other routine business, occupied the attention of the court principally. The members went out on the Barnes Mill pike to inspect the tartia section of it, and decided to scatter rock on the sides of the road in an effort to better conditions.

## Commissioners Sale

James Hignite Plaintiff vs. Berea Bank & Trust Co. Def.

## WILSON STANDS WITH DEMOCRATIC LEADERS

On Treaty Reservations, Just So Is Not Abandoned

(By Associated Press) Washington, Nov. 7.—President Wilson today told Senator Hitchcock administration leaders in the Senate treaty fight, he would be entirely satisfied with any reservation the supporters of the treaty might feel justified in accepting, provided they did not nullify the League of Nations covenant and were designed for the purpose of interpreting the terms of the treaty. Hitchcock said the President expressed "his very strong approval" of what had been done to date and agreed that no compromise would be offered unless a dead lock.

On the resolution of ratification Hitchcock outlined his program as first an endeavor to defeat the reservations reported by the Foreign Relations Committee and if that failed, to vote down the resolution of ratification containing them.

The next move would be to present a resolution of ratification and should a dead lock ensue, then attempt to compromise with the republican opponents.

Hitchcock said if a ratification resolution containing the committee reservation is adopted that would settle the fight as far as the senate is concerned, but the president could "pigeon hole" the treaty. He declined, however, to speculate on the president's probable course. The President was propped in bed during the Hitchcock interview. The latter said the President is much improved in health but his face showed he had endured great suffering.

## HEARD ABOUT TOWN

Mr. George Lee, of Danville, who has been visiting his son, Lieut. D. R. Lee for the past ten days, stopped by early this week with his daughter, Mrs. G. Murray Smith, and family while en route home. Her brother, Lieut. Lee, is at present in command of U. S. S. R-23. During the recent World War, in addition to guarding cities along the coast of Ireland, he graduated at Annapolis in 1913 and has been in Uncle Sam's service ever since. Lieut. Lee is expecting orders shortly that will take him to Panama, where he will likely spend several months.
